

TULSA WANTS BRANCH WHOLESALE JOBBERS

Effort Will Be Made to Interest Distributors in St. Louis of Advantages of This City.

N. R. GRAHAM FOSTERS PLAN

Cuts Used in Recent Pamphlet Made Available to Chamber of Commerce for Campaign.

Suggestion was made at the meeting of the chamber of commerce yesterday that Tulsa make an effort to interest St. Louis wholesale men and jobbers in establishing branch distributing houses in Tulsa. For many years the wholesale dealers of St. Louis have been suffering from the increase of Kansas City, and it was pointed out by N. R. Graham that now is Tulsa's opportunity to induce the St. Louis firms to open distributing houses here. A campaign would be favorably received in St. Louis and would be of great benefit to Tulsa, which has overlooked the jolting feature of one building, he said.

Tulsa needs a wholesale drug house and a wholesale dry goods company. Both types were taken up by a wholesale hardware company in and this project is assured now. Numbers of other jobbing houses could profitably establish branch houses here, having a territory without competition until Dallas, Fort Worth, St. Louis, Wichita and Kansas City are reached.

Efforts of the Sherwin-Williams Paint company to locate their warehouse in Tulsa which were discontinued by the inability of the company to get a suitable building here, will be encouraged again by the chamber of commerce. It was stated at the meeting of the chamber yesterday by one of the directors that a representative had been in the city for several weeks looking for a suitable building. While no representative was here, it was stated, he discussed his plans with the secretary of the chamber of commerce. W. C. Steiger said that he had a site and the owners would build a suitable building. M. C. Hale also stated that he knew of a very desirable property with excellent trackage and the owner had been wanting such a tenant as the Sherwin-Williams Paint company, who would take a 10-year lease.

The assistant secretary of the chamber of commerce was instructed to take up the matter with the company immediately.

TEN TEACHERS ARRIVE FOR SCHOOL OPENING

Assignments to Different Schools Has Not Started—More Pedagogues Are Expected.

Ten new teachers in Tulsa's public schools have arrived in the city preparatory to the opening of the teachers' institute and registration next week. Most are expected to arrive today. Those who arrived yesterday are: O. G. Grigs, principal, formerly assistant superintendent of schools at Caddo; Thomas Scott, principal, formerly superintendent of schools at Coffeyville, Kan.; Miss Ruth White and Miss Bertha White, Asher; Miss Minnie Howe, teacher in departmental grades, Bushnell Hill; Miss Annie Roberts, departmental grades, Elfred, Pa.; Miss Phoebe Douglas, Sand Springs; Miss Evonne Roberts, Duluth, Minn.; E. W. Howe, physical director, recently returned from service in France, and Miss Gertrude Brooks, colored teacher in primary grades.

Assignment of teachers to different schools has not yet been made.

CITY DISAPPROVES PETITION.

No Paving for Eighteenth Street Between Boston and Cheyenne.

Petition to pave Eighteenth street between Boston and Cheyenne which was submitted by the city commissioners yesterday on recommendation of the city engineer. The south side of the street adjoins the Peeters tract which is outside the city limits and until an amended petition with the property owners of the Peeters tract inclined to present, no action can be taken by the city.

BARBER POLE BUSINESS ASSET.

Barber Pole Appeals to Commissioners to Stop Removal of Sign.

The barber pole, with its spiraling colors of red and white, is not yet taken down, in conformity with the winter Indian of the cigar stores. The barber pole, even in Tulsa, is still considered an advertising item of no mean value as is attested by application to the city commissioners yesterday for permission to erect a barber pole on the curb at 12½ East Third street. The pole had been placed but City Building Inspector Tom Clark ordered it removed and thus the application was made for a special permit. The permit was granted.

Permit for Hall Granted.

Permit to use Convention hall Number 4 was granted to Akard people by the city commissioners yesterday.

CHILDREN MAY HAVE TO USE OLD BOOKS

Board of Education Ready to Ask Permission of State Commission to Use Last Year Series.

NONE OF NEW LISTS ARRIVE

Booksellers Place Blame on Late Selection; Publishers Pressed for Time to Supply Demands.

Tulsa school children will probably continue using old text books during the first term of the coming school year unless a sufficient supply of new ones selected by the state commission is on hand at the book stores by the opening of the fall term, members of the board of education said yesterday. At present none of the new books have arrived in the city and merchants doubt if a sufficient number will be here by September 15, the opening of the fall term.

With five entirely new books placed on the list of the grade schools and an equal number placed on the high school list, publishers are pressing hard to furnish books, dealers say. Booksellers, publishers and school officials blame the textbook commission for the shortage on the grounds that the meeting for revising the list was held too late to allow publishers to provide for the large demand. In Tulsa alone about 100,000 new books, which have never been used in Oklahoma schools, will be needed.

Although the teacher principal or the head of a school may authorise the use of old books if authorized by the commission it is to fine under the state law officials said yesterday that they would request the use of old books if new ones could not be procured by the opening of school. Should the commission deny the privilege of using old texts, children will be forced to attend school without books.

Immediate action will be taken by the head of education as soon as it is definitely known whether local stores will receive shipments before September 15. If books are not here then the commission will be asked to grant local schools the privilege of using books formerly in use.

MORE MONEY FOR CHAINMEN.

City Engineers Recommend Increases in Salaries for Employees.

Increases in pay of chairman of the city engineering department from \$75 and \$85 a month to \$100 a month was asked yesterday by City Engineer C. E. Grigs in a communication to the city commissioners. He is definitely known whether local stores will receive shipments before September 15. If books are not here then the commission will be asked to grant local schools the privilege of using books formerly in use.

Lyric Linen Pound Paper.

A full pound of this fine writing paper, in white only, priced less than today's market. Limit 4 to a customer. None sold to dealers. Pound, special.
